

Remarks

This paper responds to the Office Action dated June 28, 2005.

The art rejections of the previous Office Action have been withdrawn, and the only remaining rejection is a perceived indefiniteness on the part of the Examiner with respect to the two pending independent claims, namely claims 14 and 19.

It seemed quite clear to the undersigned that claims 14 and 19 were already quite clear and definite. Nonetheless, claims 14 and 19 have been amended in the hopes of overcoming the Examiner's concerns.

If the Examiner has any remaining concerns regarding the definiteness of the pending claims, the Examiner is urged to telephone the undersigned so that any such concerns may be immediately and efficiently addressed.

Respectfully submitted,
